OVERVIEW

The Arena collection presents a distinctive organic design, the waves of the white acrylic diffusers are unmistakably influenced by the rise and fall pattern embedded into the sands by the tides. With circular and square flush ceiling lights available in three different sizes and complementing rectangular wall and table lamps, Arena is a comprehensive collection. The illumination from the integral LED's is harmoniously diffused; with the wave like design lending natural flow and movement to the crisp white (3000K) light. All fixed items in this collection have an IP44 rating making them suitable for use in bathrooms and certain outdoor applications.
