OVERVIEW

Infinity Brown Oxide offers a rustic finish to the Infinity collection. Infinity artistically displays a smooth and uniform line of light without a beginning or an end in this original design by Jose Ignacio Ballester. The contrasting combination of brown oxide framework and frosted polycarbonate diffuser produces a better realisation of the curves and turns which mimic the shape and movement of rhythmic ribbons. This integral LED collection produces a warm white (2800K) light output to compliment the more classic colour finish. The range consists of pendant and flush ceiling lights as well as an impressive looped table lamp. The flush version boasts a mirror back plate which simply doubles the impact of the design. Several items are also available in dimmable versions.
